

## ISO 9001:2008 & PED 97/23/EC

### QUALITY POLICY

Mack Valves Pty Ltd is committed to providing Australian and World markets with a range of industrial valves manufactured to the highest quality and in conformity with appropriate international standards.

The Company will maintain its position as a recognised leader in valve design and manufacturing techniques at all times seeking to employ world's best practice.

The Company will ensure that its Quality Policy:-

- remains appropriate to the purpose of the organization;
- complies with requirements and is updated where applicable to continually reflect improvement in the management of its quality systems;
- provides a facility for reviewing quality objectives;
- is communicated and understood throughout the organization;
- promotes and ensure public health and safety on products;
- Meet the essential safety requirements on products according to PED 97/23/EC.

The requirements and recommendations of **ISO 9001:2008** have been adopted without exclusions and to **European Directive 97/23/EC** wherever appropriate, as the basis for the Company's Quality Management System.

The Company will, through the absolute commitment of each and every member of its staff, maintain and extend its reputation for excellence in the delivery of product and services to its customers.
